2007 breeding contract FOR SCORE'S DAKOTA

This is a legal contract between the owner of **Score's Dakota TWHBEA #20211502, SSHBEA registration pending** Marc and Dodie Sable of New Promise Farms, LLC located at 37 Fenstermacher Road, New Smithville, PA and the owner of the

mare named _____ Breed _____ Registration # _____

Dam's Name _____ Owner name _____

Owner Address & phone _____

New Promise Farms, LLC will provide breeding to the above stallion, on the above mare, for the fee of \$400.00. This fee is broke into two parts: 1) The booking fee \$200 due at time of breeding and 2) the foaling fee \$200 due at time of foal birth. This fee does not include any costs which may occur for boarding the mare, shipping semen, veterinarian visits, worming, shoeing, vaccinations or any other costs associated with the mare's stay at New Promise Farms, LLC while being bred to the stallion or for AI semen shipping. Release of the breeder's certificate will be at time of foal birth upon receipt of two photos of the foal by New Promise Farms, one side view and one nursing from its dam and receipt pf the foaling fee \$200.

This fee does carry several guarantees:

The mare owner receives a live foal. Our definition of said foal is one that stands and nurses. Once the foal has nursed from its dam, this guarantee is fulfilled. If the mare does not produce a foal, either due to non-conception, absorption or miscarriage abortion, we will rebreed the mare at no further breeding fees to the mare owner except those of mare care cost, veterinarian costs, semen collection charges, or any other costs associated with breeding the mare.

Registered pinto TWHBEA, SSHBEA and pinto or sabino colored grade mares receive a color guarantee. Our definition of color is the foal is possessing at least one white pinto markings of a half dollar size or larger or sabino roaning; 1) the balance of the breeding fee \$200 is not owed to New Promise Farms and the breeders certificate will be released or 2) the owner can pay the balance of the breeding fee \$200 and receive a free breeding for the next breeding season on may mare of choice. The free breeding does not include any costs associated with mare care, vet fees, semen shipping, or other breeding related costs.

Score's Dakota is NOT homozygous for color so the mare owner is taking a chance on a solid foal when breeding to this stallion. Our guarantee is offered so that the mare owner may have a second chance at foaling a pinto colored Walker. The guarantee does not apply to any free rebreeding if the mare produced a solid foal.

This breeding is transferable on these conditions. If the mare cannot conceive or carry a foal to term. If the owner sells the mare, or the mare is deceased, after paying the booking fee and before breeding the mare. Should the mare owner sell the mare after she is bred or sell this breeding to a third party after paying the booking fee of \$200, a transfer fee of \$200 will be due to New Promise Farms, LLC. Should the transfer fee not be paid, New Promise Farms, LLC will not hold any guarantees for breeding, will not issue a breeder certificate, and will not honor this contract to the third party. New Promise Farms, LLC - **nor the TWHBEA** - is responsible to determine who remits the \$200 transfer fee. The determination of who will pay the transfer fee to New Promise Farms, LLC for the transfer of this breeding contract is an agreement between the mare owner who signed this contract and the third party that purchased this contract.

This breeding has no time limit on it for live cover. In the event a \$200 booking fee has been paid and the owner is unable to breed a mare for the year of the booking fee, the breeding will carry over until the owner is able to use it. In the event the Score's Dakota would become sterile or deceased prior to the breeding being used, the booking fee will be refunded, or the owner may choose to breed to another stallion owned by New Promise Farms, LLC.

2007 breeding contract, live cover

Prior to your mare's arrival at our farm, we will need the following information provided to us:

1. Current negative Coggins test
2. Current proof of immunizations
3. Copy of uterine culture no older than 60 days prior to breeding
4. Your veterinarians phone # (in case we have any questions)
5. Copy of mares registration papers
6. \$200.00 booking fee, balance due at time of foaling
7. Boarding costs for approximate stay at \$10.00 per day or \$295 for a full month

Your mare will be provided with a box stall and three times per week turnout. She will be fed twice daily with alfalfa hay and Pure Pride 300 pellets. This eliminates any upset stomachs due to feed change. She will be covered by the stallion once per day during her heat cycle. We breed by hand unless pasture breeding is requested.

If your mare is in foal, and will have her foal at New Promise Farms, she will be monitored 24 hours a day until the foal arrives. The foal will be imprinted immediately upon birth and will be handled daily. The mare will be monitored after the birth for any post-birth complications. If the birth was uneventful and the mare is not torn or sore, she will be bred on the foal heat.

If requested, your mare will have an ultrasound at 16 days to determine pregnancy. If not, and she does not show a second heat, we will assume she is in foal. You are requested to have her checked by a veterinarian at 40 to 60 days via rectal exam to determine pregnancy.

2007 breeding contract, semen shipping (2007 shipping not available for Score's Dakota)

The mare owner has read the above contract and agrees with all the terms and conditions as set forth in the contract.
